EDUCATION

CVR College of Engineering
Bachelor of Technology - CGPA - 9.5

2022 – 2026
Hyderabad, India

Narayana Junior College
MPC - Percentage - 98.4%

2020 – 2022
Hyderabad, India

ACHIEVEMENTS & INNOVATIVE TECH SOLUTIONS

Sudhee Hackathon, CBIT

March 2025

- Secured 1st place among 150+ teams for building an AI-powered satellite image analysis system.
- Leveraged CNN models with data from Copernicus, Sentinel APIs & GEE for high-accuracy land cover detection and predictive geospatial analytics

Google Solutions Challenge

Feb 2025

Google Developers Group, CVR College of Engineering

- Achieved 3rd place among 50+ participants for developing an AI-powered, data-driven platform to address poverty.

Hackcelerate

May 2025

Microsoft IDC, Hyderabad

- Selected among top 16 teams out of 441 nationwide; presented at Microsoft India Development Center.
- Developed AgriVerse, an AI-powered smart farming platform that integrated crop health monitoring, yield prediction models, and immersive AR/VR modules to enhance farmer training and agricultural decision-making.

PROJECTS

WellSync | React.js, Flask, MySQL, OpenCV, Virtual Reality

Mar 2025 - June 2025

- Developed a health companion app using computer vision for facial mood detection with mood-based movie recommendations and yoga pose correction with 99% accuracy.
- Integrated a personalized diet engine, AI chatbot for mental wellness, and immersive VR-based therapy tools.

NoPoverty | Python, Django, SQLite, Google Gemini, Vertex AI

Feb 2025

- Designed an AI-driven poverty prediction platform using satellite imagery and census data, achieving 98% accuracy in aid targeting, helping NGOs identify poverty-prone areas, and contributing to global goals.
- Integrated RESTful APIs for donations, crisis support, job mapping, and a real-time AI chatbot for assistance.

EduOrbit | MongoDB, Express, React, Node.js, LangChain, Gemini

Oct 2024 - Dec 2024

- Built a collaborative and personalized learning platform with AI-powered study support.
- Included real-time group rooms for creating/joining discussions, resource sharing, document summarization using LangChain, and personalized progress tracking to enhance engagement and collaboration.

TECHNICAL SKILLS

Languages: Java, C, Python, JavaScript, SQL.

Databases: MySQL, MongoDB, Firebase, SQLite, PostgreSQL.

Technologies & Frameworks: Django, Flask, ReactJS, NodeJS, ExpressJS, JWT, TailwindCSS, Socket.io, Bootstrap, HTML5, CSS3, Vite, JDBC, Servlets, JSP.

Tools & Platforms: Git, GitHub, Vercel, Netlify, Render, Google Cloud, GitHub Actions, AWS, Jenkins, Maven, Docker.

Key Concepts: Artificial Intelligence, Machine Learning, Deep Learning, Data Analytics.

CERTIFICATIONS

AICTE Eduskills: Google AI&ML, Generative AI, Altair Data Science Virtual internship.

Oracle Academy: Database Programming, Database Design, & PL SQL.

Social Winter of Code(SWOC): Contributed to open-source projects.

Cloud Computing: AWS Academy Cloud Foundations, Google Cloud skills boost.

MongoDB Course: Hands-on experience with NoSQL databases, CRUD operations, indexing, aggregation.

Accenture Forage: Completed a hands-on Data Analytics & Visualization simulation.

SOFT SKILLS

Problem Solving, Communication Skills, Critical Thinking, Teamwork, Creativity and Innovation
